

# INTERNET INFORMATION

## Using the Internet on the U-M Campus

- 1) Connect to MGuest Wi-fi network on your device (i.e. Laptop, Smartphone)
- 2) Open a web browser (Note: Internet Explorer 9 is not supported). MGuest Welcome Page will appear.

**M** MGuest  
Information and Technology Services

MGuest is a limited WiFi network for University of Michigan guests.

**MWireless** is available for U-M students, faculty, staff and sponsored guests.

MGuest is a part of the U-M IT environment. By using this resource, you have implicitly agreed to abide by the highest standards of responsibility. You are required to comply with all University policies, state, and federal laws concerning appropriate use of information technology. Non-compliance is considered a serious breach of community standards and may result in disciplinary or legal action.

To access MGuest enter your email address and click *I Agree*.

Email Address

MGuest is treated like a non-UM network; some U-M resource such as library journals cannot be accessed.

Internet Explorer 9 is not supported. If you use IE9, your device will connect, but it will be redirected back to the login page and not your home page.

- 3) Enter your E-mail address. Read the terms, and click “I Agree” to gain network access.
- 4) Once connected, your browser will be redirected to your browser’s home page.
